**The Irrigation Division Specializes In:**  
Irrigation Design, Installation, Two Wire Systems, Multi Wire, Pump Solutions.

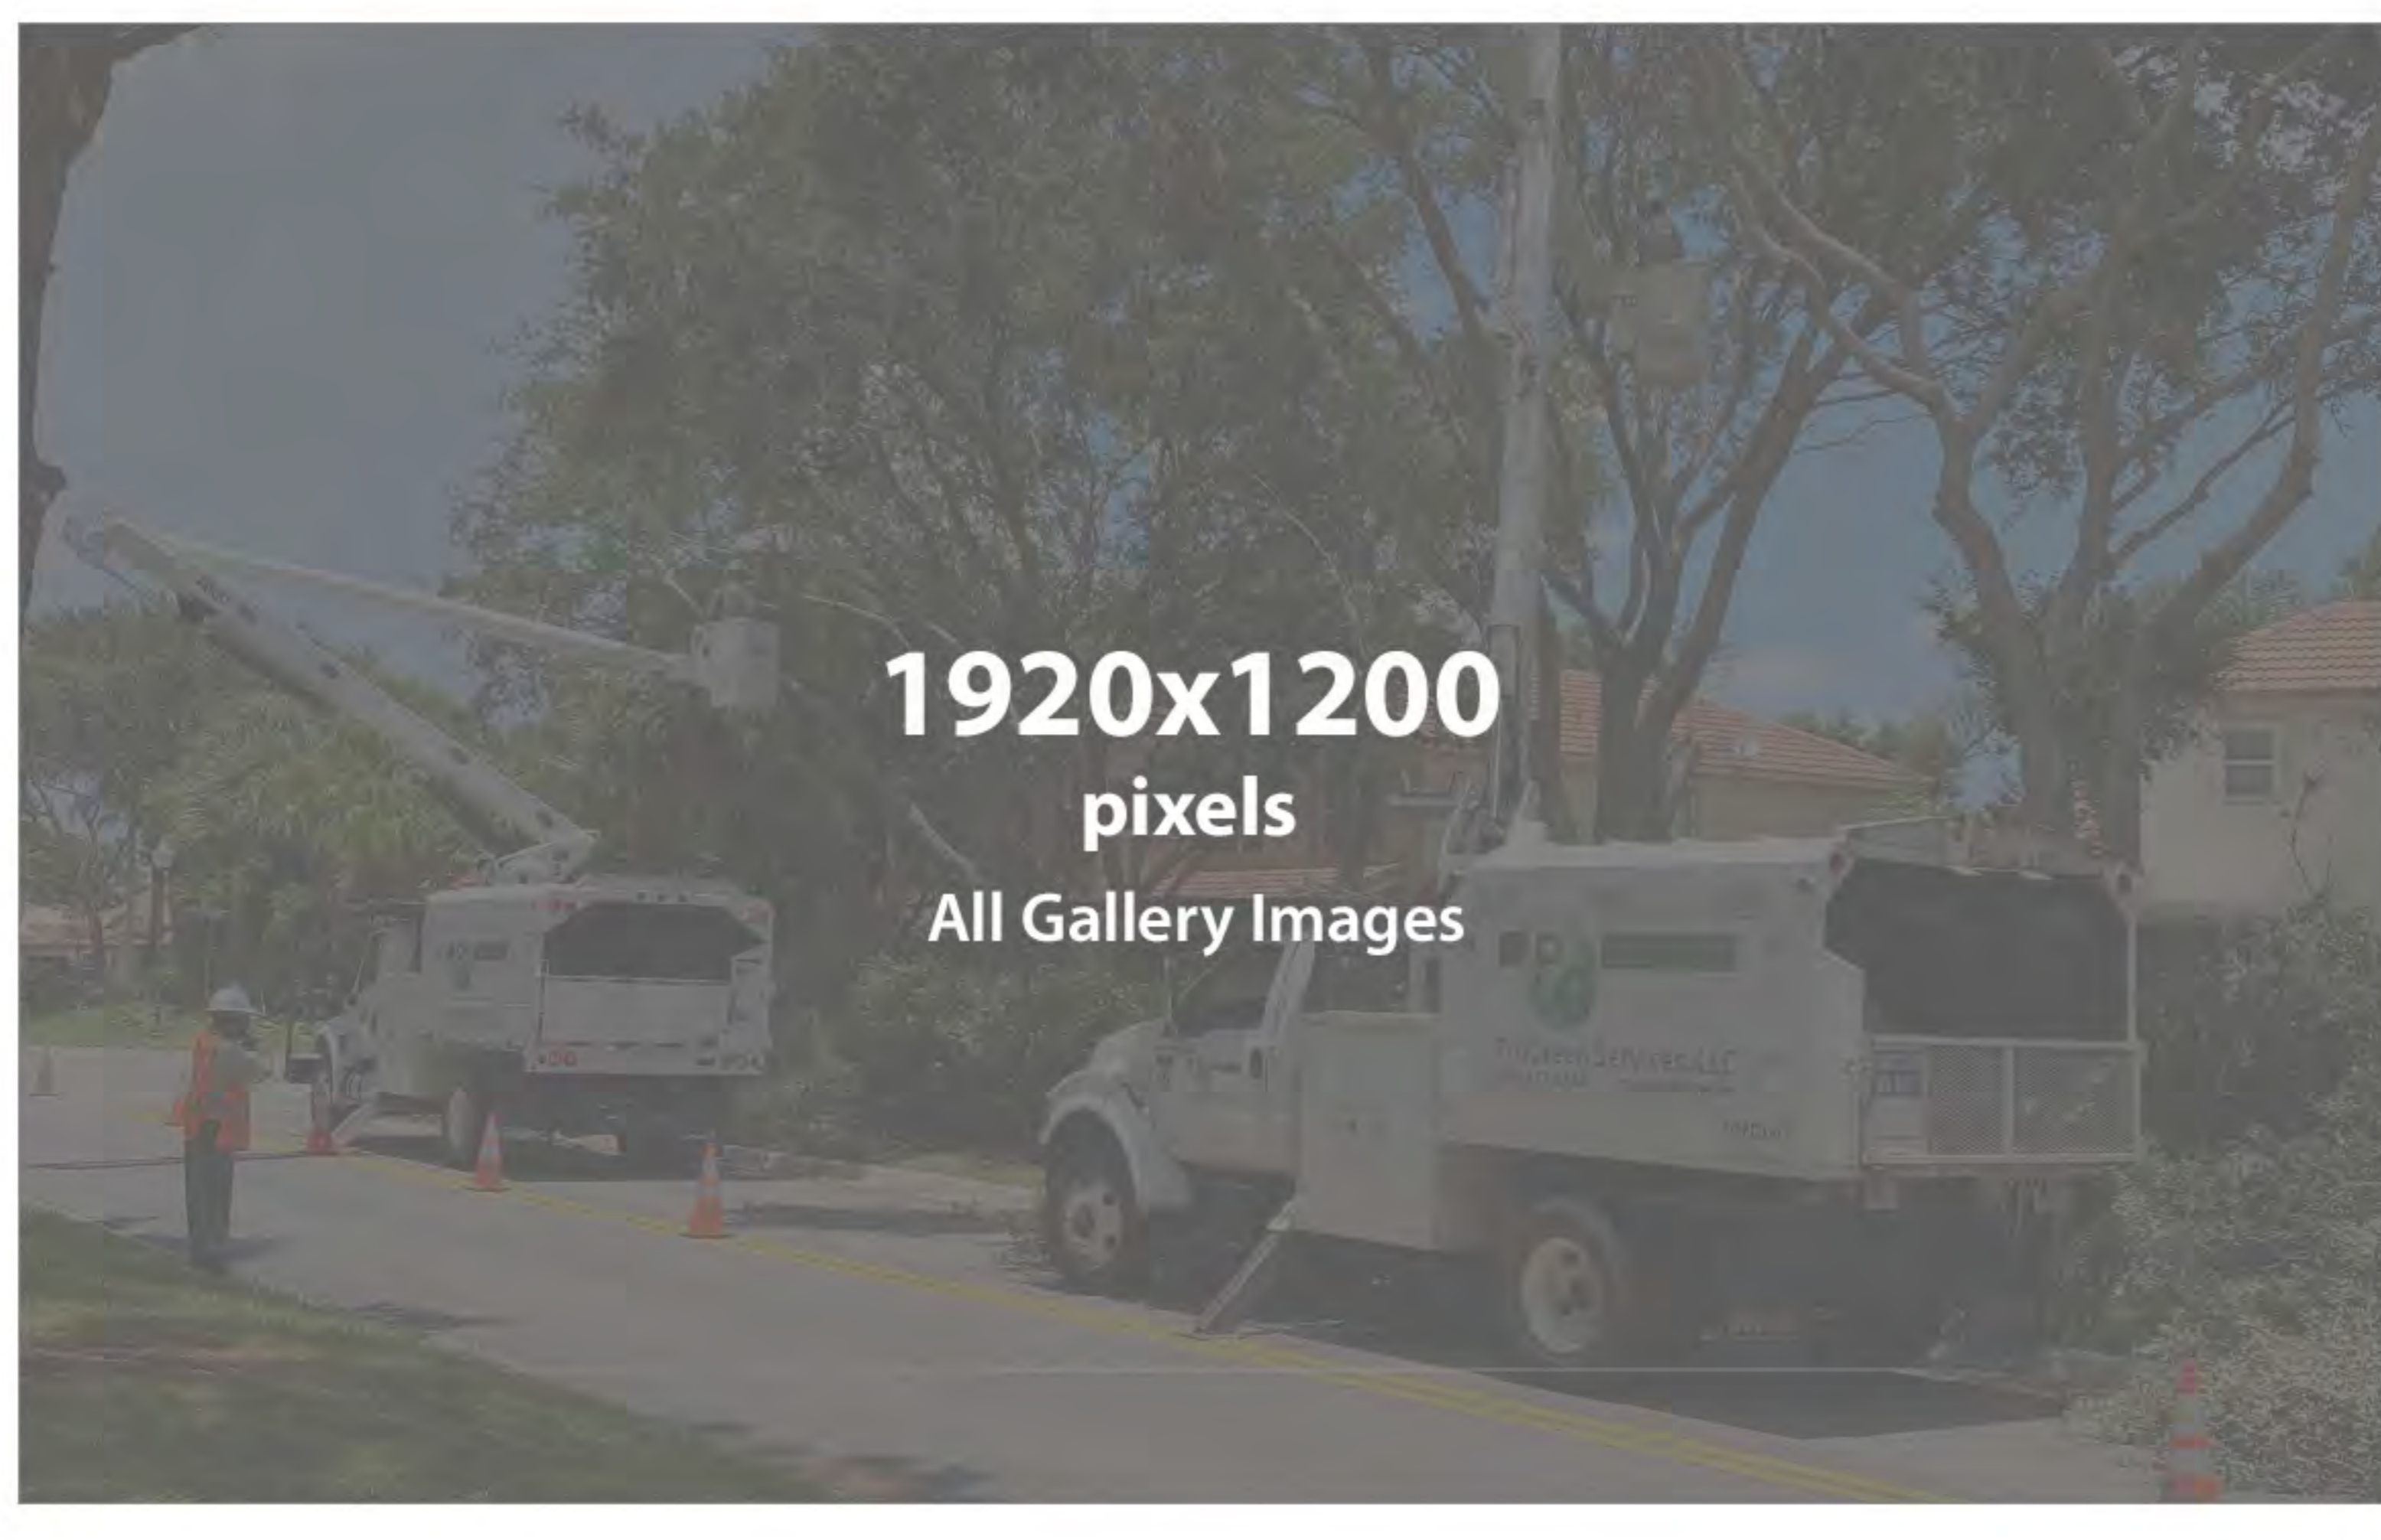

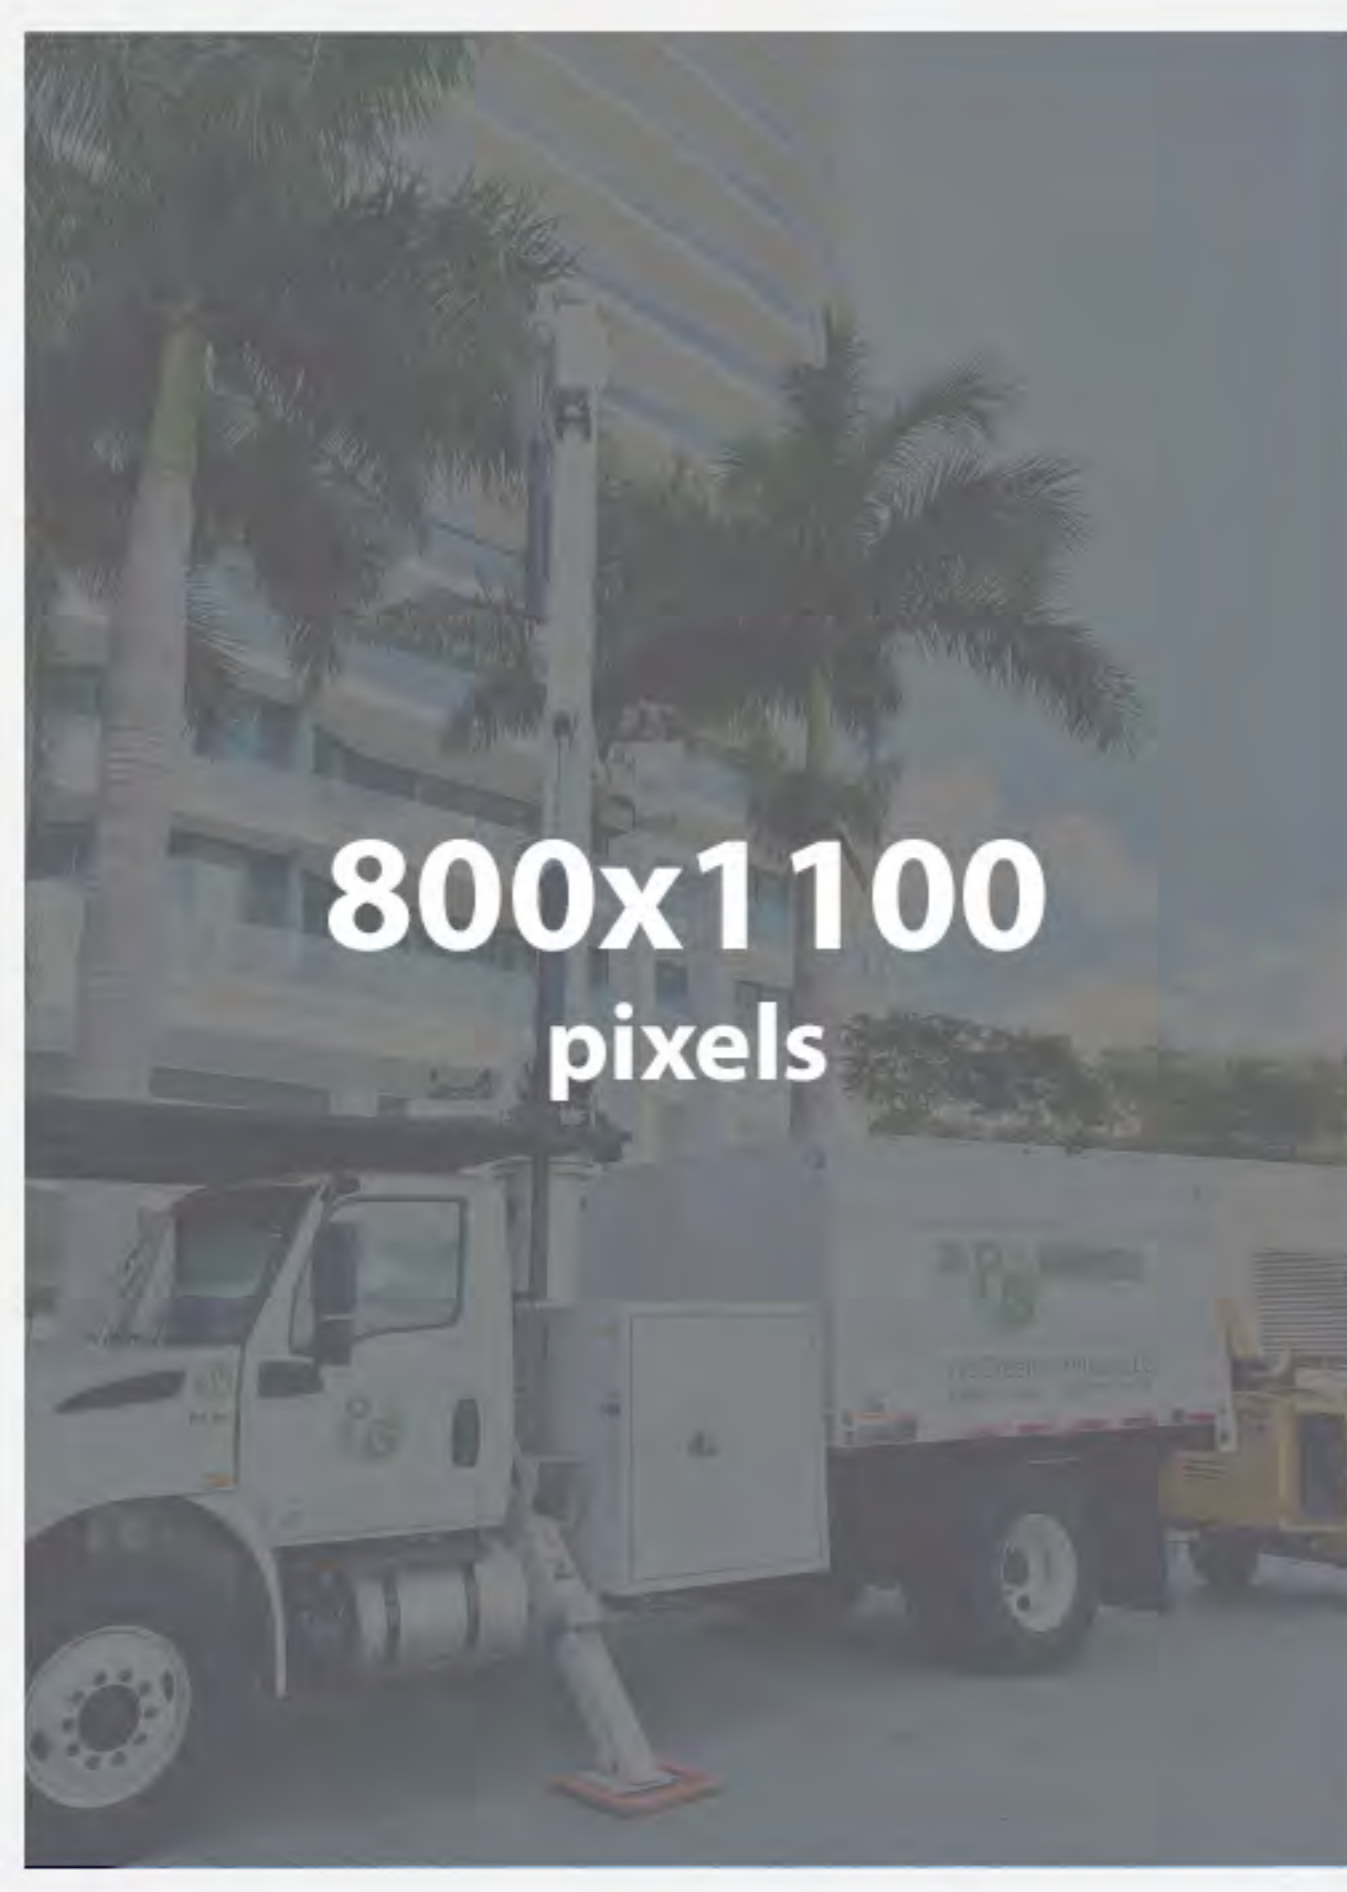

**The Environmental Division Specializes In:**  
Pest Management Services.  
ProGreen Services, LLC licensed technicians specializing in designing specific horticultural programs for your community.

Our goal is to manage your community and increase the standard of living by improving the overall quality of landscaping and irrigation and landscape services.

### The Story Of ProGreen Services, LLC

In January 2012, Clark Whiddon, established ProGreen Services, LLC. January 2018, ProGreen Services, LLC Orlando branch was opened. The company has exceeded Clark's expectations and has grown exponentially in just a short 10 years turning 2019 – 2022 into pivotal years for ProGreen. As the company skyrocketed in January of 2020, ProGreen added the Environmental Division and ProGreen Services, LLC the addition of the Irrigation and Construction/Installation Divisions. In 2022, we opened our Melbourne location due to our ongoing relationships throughout Florida. Our solid foundation, talent and experience combined makes us one of the most uniquely qualified full-service landscape, irrigation and installation companies in Florida.

At ProGreen Services, LLC, our team is highly motivated, knowledgeable, ethical and resourceful. Qualified to handle any Maintenance, Irrigation, Arbor and Construction/Installation operation, our dedicated staff is committed to helping communities and homeowners with their landscaping and irrigation needs. Our team of professionals have the integrity to follow up on our promises, and the expertise to navigate any job to ensure you're fully informed making the best decision possible for your community. We welcome an opportunity to personally introduce our organization.

## Polo Lakes Designer Apartment Homes

I would like to take this opportunity to recommend ProGreen Services to anyone seeking a professional, reliable and efficient landscape contractor.

ProGreen has provided a variety of landscape services for Polo Lake Apartments including general landscape & irrigation repairs, irrigation replacement, large landscape change outs, tree trimming, mulching, etc. Clark Whiddon manages all contracts from beginning to end. He is a one source company and he will provide a detailed scope of work that will guarantee successful completion of any job he does.

I have been in the property management business for 22 years and ProGreen & its employees have been one of the best companies that I have had the privilege to work with. He is responsive and always provides a high level of professionalism.

- **Bonnie Adderley**  
Executive Manager, Polo Lakes Designer Apartment Homes

## McCraney Property Company

McCraney Property Company is an industrial developer based in West Palm Beach, Florida. We have developed and manage over seven million square feet of Class A industrial buildings throughout the Southeast. We pride ourselves on the level of service we give to every tenant.

Pro-Green handles all of the landscaping for our properties in South Florida (close to one million square feet.) We have utilized Pro Green's services for over a year now and have very high standards for all of our vendors, especially the landscaper. Pro Green was hired because our previous company could not meet our expectations. The choice to move Pro Green was the right one as they have shown pride in their workmanship.

Clark is very easy to work with. He responds to requests immediately. This is a key component as our properties always need to be kept in pristine condition.

I cannot say enough good things about Clark and his company. We are very happy and would welcome anyone tour our facilities to see his work. If you would like to speak to me personally, I can be reached at 239-537-6168.

- **Michael Lanford**  
Asset Manager, McCraney Property Company

## Park Aire Apartments

Please accept this letter as a formal recommendation of ProGreen Services for their work in landscape maintenance, installation, and design.

ProGreen Services has proven to be one of the most professional, efficient and knowledgeable landscaping companies I have worked with. Clark Whiddon and his team came on board to Park Air in January 2017, demonstrating immediate positive results. The property was in need of heavy weeding, irrigation rescheduling, and tree trimming. ProGreen quickly turned the property into the beautiful community it once was. More importantly, they have maintained it and have kept it in pristine condition.

My experience with ProGreen Services has been very favorable and I would encourage other companies to use their services.

- **Amy Adorno**  
Property Manager, Park Aire Apartments

## RedTail

In Florida, irrigation is the lifeblood of any landscaping. Recently, we had several irrigation pump issues in our community. The Red Tail Homeowners Association decided to hire ProGreen Services because they were able to diagnose the problem, make recommendations to the board, and ultimately repair the issues in a timely manner that allowed our system to be back up in running.

After the initial repairs were completed, we found another pump issues and the ProGreen Services team was able to source out of state materials and again ensure our system was back up and running.

With a dedicated irrigation department Progreen Services can install, repair, or maintain any level of landscape irrigation. They are one of the best in the industry and we appreciate their professionalism, dedication, and prompt attention to our needs.

- **Joyce Malone**  
President, RedTail Homeowners Association

Let the expertly trained team members of ProGreen Services, LLC provide you with clean, prompt and dependable service. Our experienced landscape crew, overseen by our talented management staff, will help you achieve the goals for your property! Our team will help you understand the challenges of your property and be proactive in providing solutions. Talk to our clients, that's our difference.

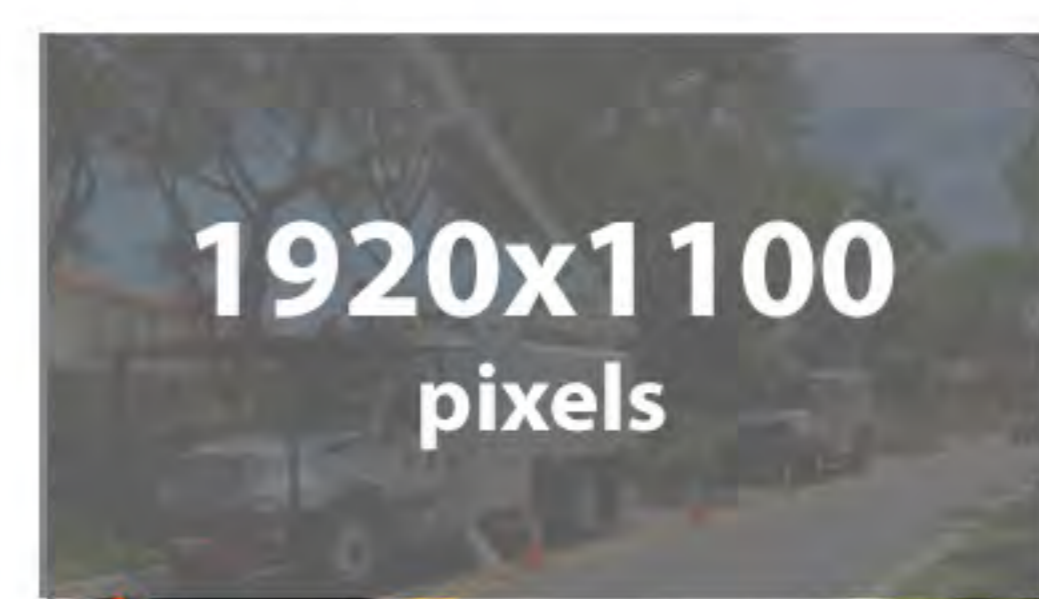

### Our Complete Property Maintenance Services include:

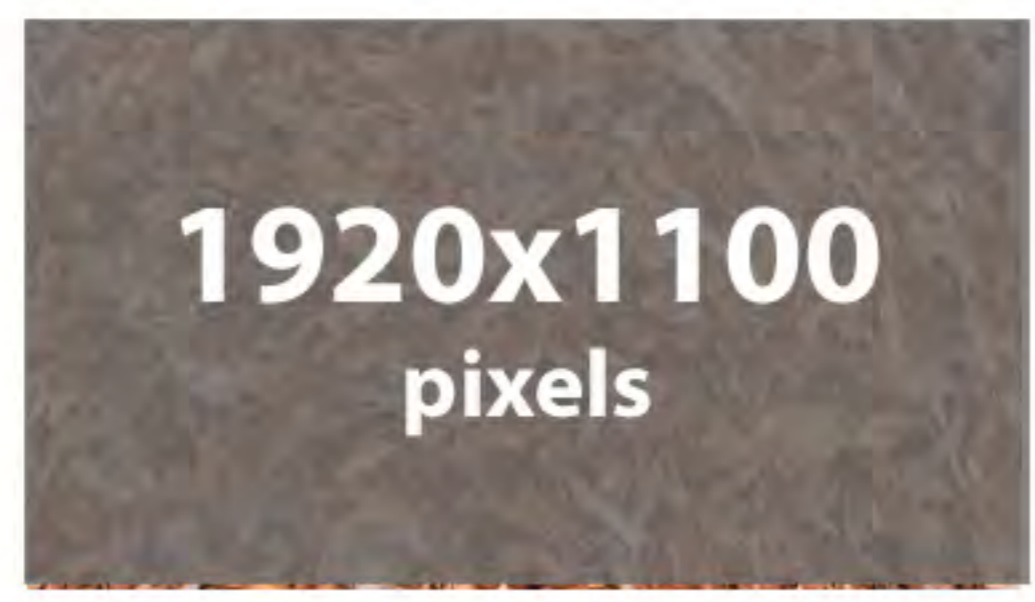

**Lawn & Turf Care**  
Mowing, edging, trimming and blowing

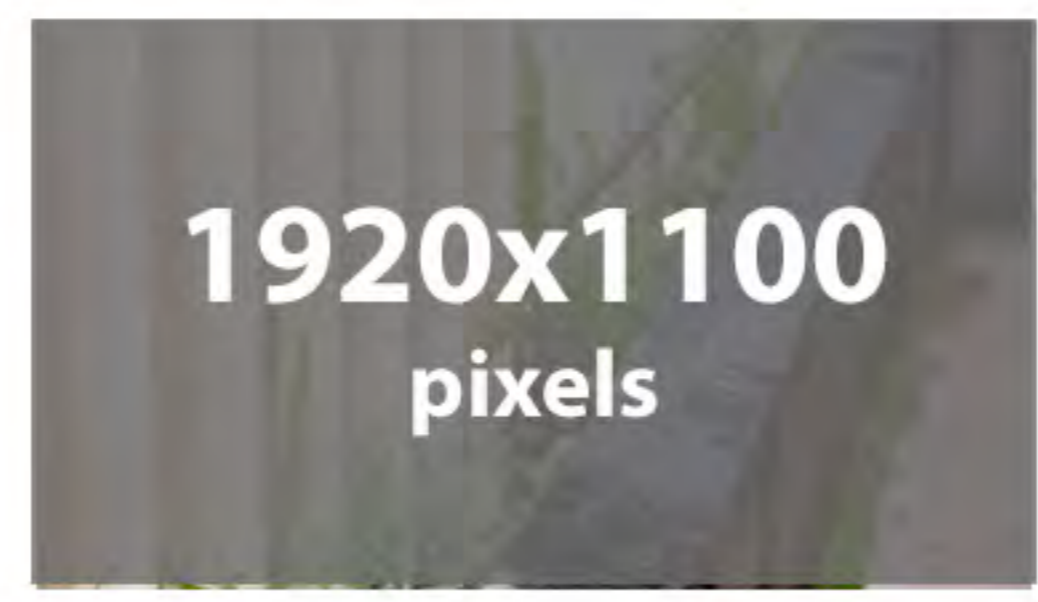

**Irrigation**  
A properly installed and maintained irrigation system is a vital part of landscape management. Our expert technicians will review your system as needed to ensure your landscape is receiving the optimal coverage and delivery of water.

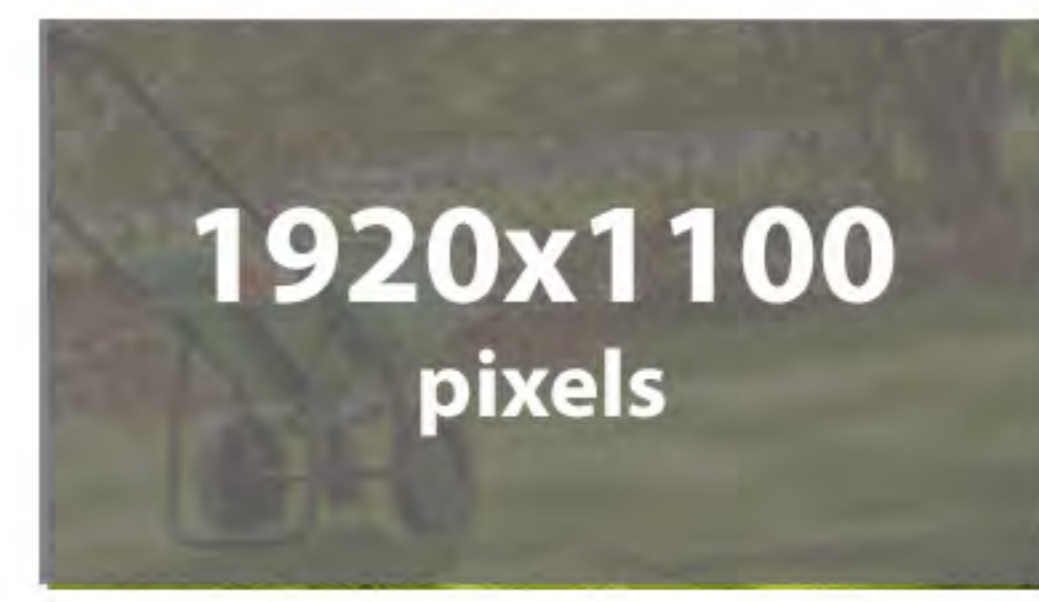

**Arbor Care**  
Professionally pruned and maintained trees add value and beauty to your community while ensuring the long-term health and safety of your trees. Planned and developed by a Florida Certified Arborist.

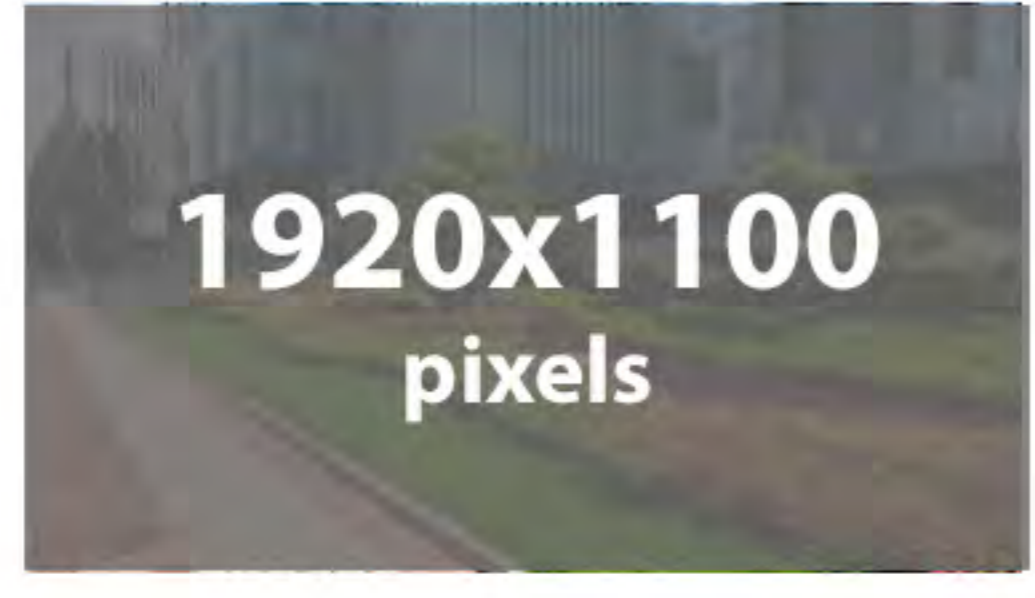

**Mulch**  
Enhance the beauty of your property while protecting plants from erosion, discouraging weed growth and encouraging water retention.

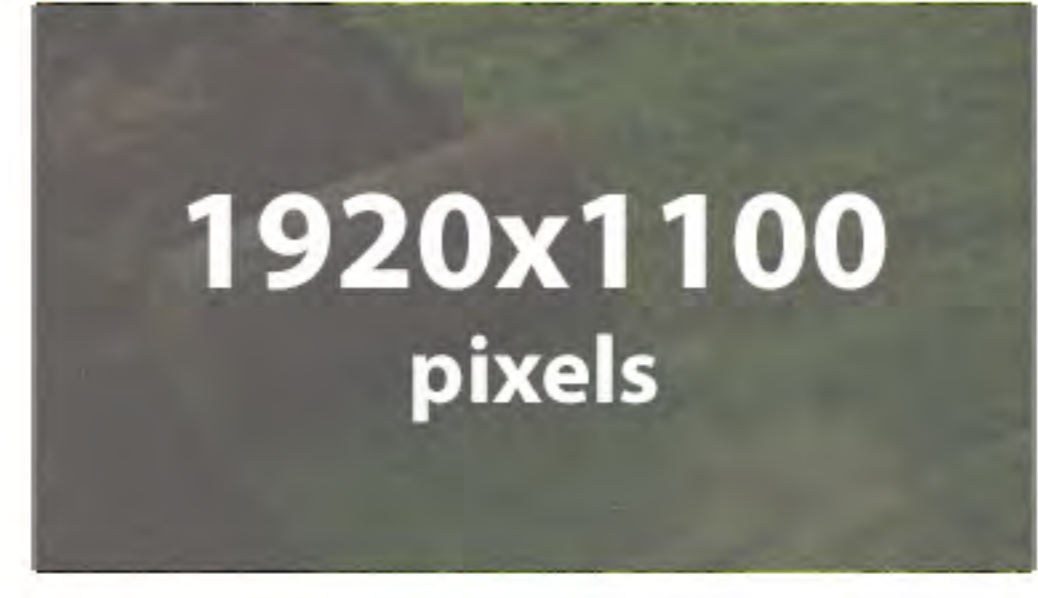

**Weed Control**  
Keeping the weeds under control yields a lush green lawn and is essential to the overall look of any property.

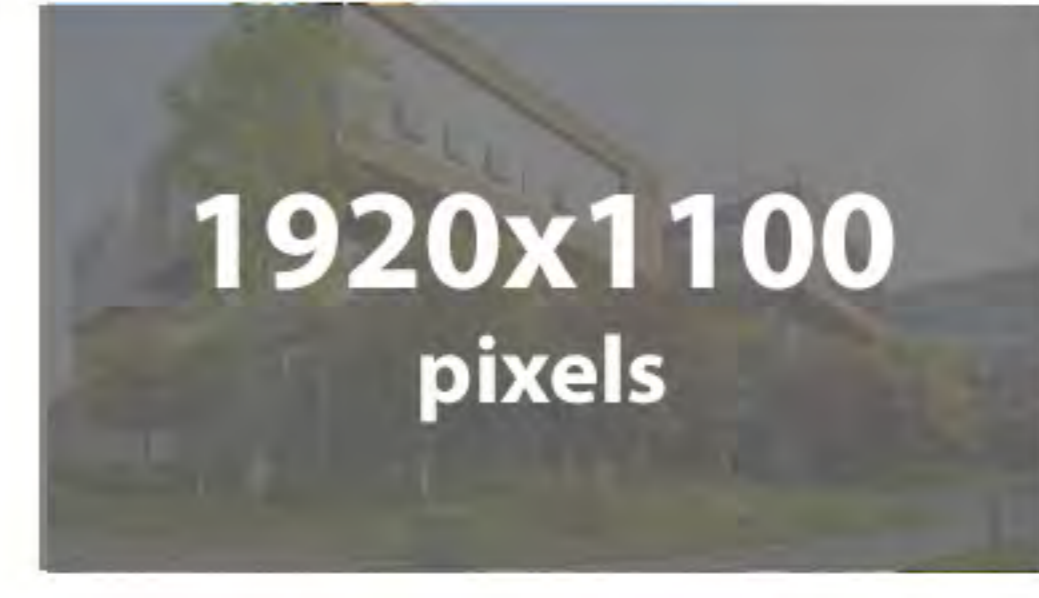

**Fertilization**  
Improve the quality, color and thickness of your turf as well as your landscape beds with timely applications of fertilizer.

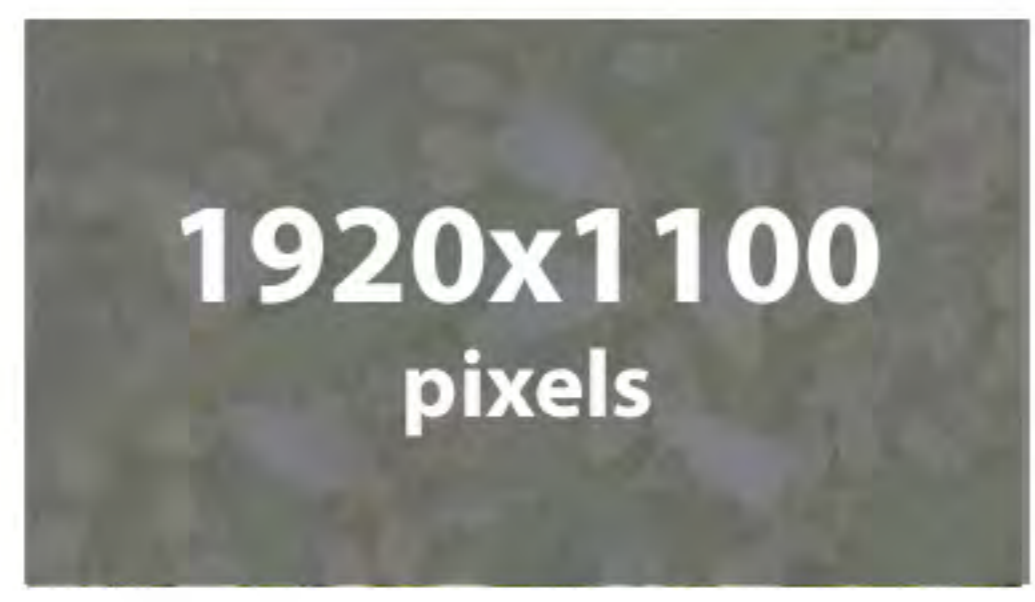

**Seasonal Color**  
Creatively designed flower beds increase your property's curb appeal.

**Sod**  
Revive your property with fresh sod as needed.

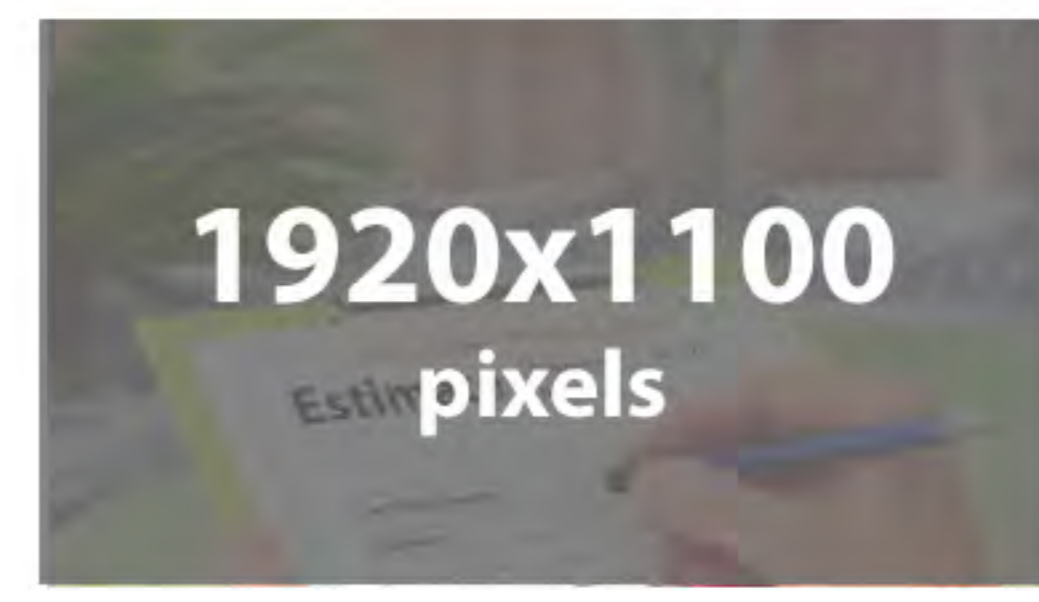

**Pruning / Trimming**  
Neatly trimmed bushes and floral displays complement any landscape.

**Integrated Pest Management Services (IPM)**  
No one likes bugs! Especially not your landscape! Let us implement our IPM programs designed specifically for your property. Now treating for White Fly, too!!

**Landscape Design and Installation**  
Let our experienced team work for you. We will design and install a landscape that suits your taste and budget.

**Free Estimates**  
No two projects are the same. We don't believe one price fits all and we will not skimp on your service. We provide accurate, realistic and reasonable estimates.

### Industries We Work With

HOA   Multifamily Community   Commercial

ProGreen Services strives to understand, support, and partner with home owners associations and their manager to dig in and understand their true needs. ProGreen Services is made up of career "Green Industry" professionals which not only understand landscape needs but also human needs.

Lawn maintenance is a relationship of a vendor with your property and that of the people that inhabit and own the properties we are managing. The success of the management of all of these elements are critical to the success not just of the chosen landscape firm but that of the property manager and ultimately the board and property owners. We look forward to meeting you !!
